This report analyzes the worldwide markets for Electronic Toll Collection (ETC) Systems in US$ Million. The report analyzes the global market as well as the US, Europe and Rest of World regions. Further, the US market for Electronic Toll Collection Systems is analyzed by the following product segments - Automatic Vehicle Identification (AVI) Systems, Automatic Vehicle Classification (AVC) systems, and Video Enforcement Systems (VES). Annual forecasts are provided for each region for the period of 2008 through 2017. The report profiles 84 companies including many key and niche players worldwide such as Affiliated Computer Services, Atlantia SpA, C-S Communication & Systems, Caseta Technologies, Inc., Federal Signal Corporation, Sirit, Inc., G.E.A., International Road Dynamics, Inc., Kapsch TrafficCom AG, Perceptics LLC, Q-FREE ASA, Raytheon Company, SAIC, Inc., Siemens Mobility, TRMI Systems Integration, Toll Collect GmbH, Transcore Holdings, Inc., and Transtoll. Market data and analytics are derived from primary and secondary research. Company profiles are mostly extracted from URL research and reported select online sources.
