

ASHIDA

Smart Solution for
Power Protection and Control

Founded in 1970, Ashida Electronics Pvt Ltd is the first company in India to develop a wide range of static and numerical relays indigenously. We are designers and **Manufacturers of Electrical Power Protection** relays & SCADA systems. Millions of our electrical power protection relays are monitoring key electrical installation all over India & abroad. We are also in the field of SCADA i.e. substation automation system.

Ashida has obtained ISO 9001:2008 certifications from M/s. BVQI, U.K. since 1997 All the relays are type tested for their vital parameters with the Central Govt. (India) Laboratories, i.e. The Institute for Design of Electrical Measuring instruments (IDEMI) & the Electronics Regional Test Laboratory (ERTL). All these relays conform to IEC 60255, IS-3231 & IS -8686-1987 & with other relevant standards.

Ashida has a wide range of products related to SCADA systems, **Substation Automation**, Manufacturer Protection Relays, Control and Relay Panel, Transformer Protection Relay, Medium Voltage Protection, **Ring Main Unit Relay Protection**, Switchgear Protection, Self Powered Relay, Auxiliary Electromechanical Relays, Smart Grid, Overcurrent Earth fault protection, Electrical Power Protection Relays, **Capacitor Protection and Feeder Protection**.

Ashida Products- Smart solutions for power **Protection and Control**.
